ABRIDGED HISTORY OF THE OKOMU OIL PALM COMPANY PLC

The Okomu Oil Palm Company was established in 1976 as a Federal Government pilot project.

At inception, the pilot project covered a surveyed area of 15,580 hectares of Government de-reserved forest.

It was then officially incorporated on December 3, 1979, as a limited liability company by the Federal Government.

By December 31, 1989, 5,055 hectares of the estate had been planted and other critical infrastructure such as staff quarters, schools, and clinics were built.

In 1990, the Technical Committee on Privatisation and Commercialisation (TCPC) privatized The Okomu Oil Palm Company on behalf of the Federal Government of Nigeria and, through an initial public offering (IPO), shares were sold to the public and the company was duly registered on the Nigerian Stock Exchange.

In 2001 the company obtained another 6116 ha which is now known as Extension 1

Responding to the Government's change in policy from a solely crude oil-based economy to an agro-based one, the company in 2014 further expanded its operations which culminated in the acquisition of 11,416 ha of land in the Ovia NE LGA/Uhunmwonde LGA, including 660ha of cultivated oil palm. This new plantation, referred to as Extension 2 and was commissioned by Governor Obaseki in 2018.

Currently, the company operates two 30 t/hr oil mills at the main Estate and another two 30 t/hr oil mills at Extension 2 plantation.

Okomu provide opportunity for more than 14,000 Nigerian shareholders to own a part of this company. The success of the company has been further exemplified by the strong increase of its net income which has resulted in a 4 fold increase in the company's share price since 2012 and the payout of annual dividends.

What is most inspiring is not just the growth and profitability of the company but the fact that the Okomu Oil Palm Company Plc is ranked 10th among listed companies with the largest turnovers quoted on the Nigerian Stock Exchange (NSE).

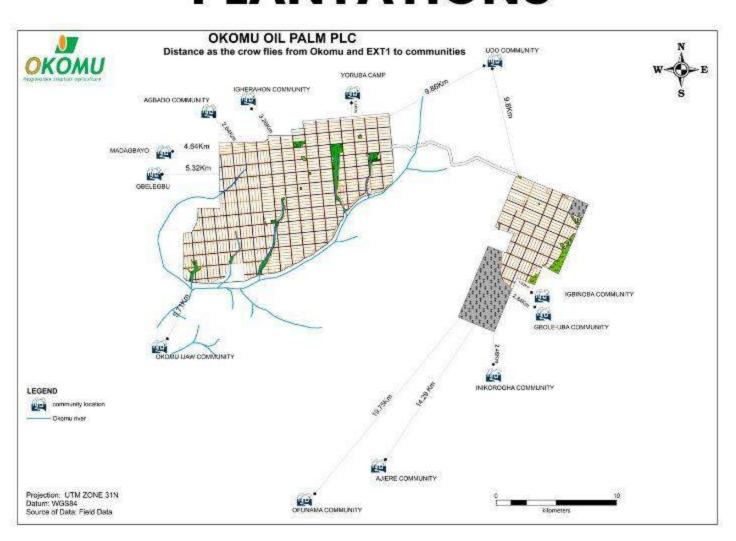

The company provides free health care, housing, power, water, schooling and other benefits to its workers and has a social corporate responsibility (CSR) programme that assists 29 neighbouring communities surrounding the company's three plantations currently valued at more than N600 million per annum.

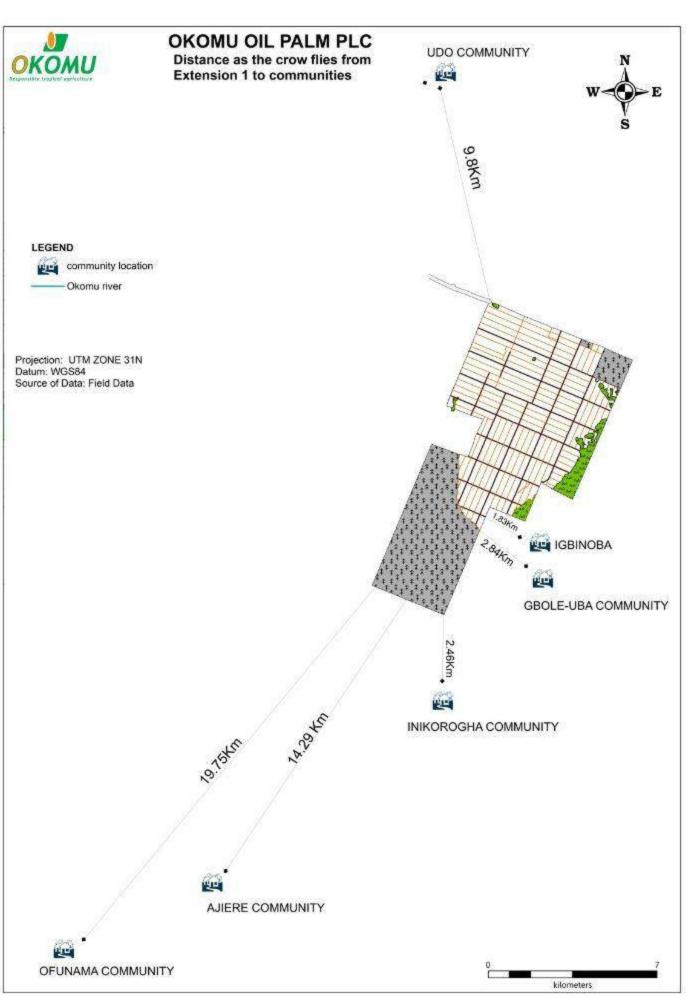

With all these facts, the Okomu Oil Palm Company Plc has lived up to Adrien Hallet's slogan.

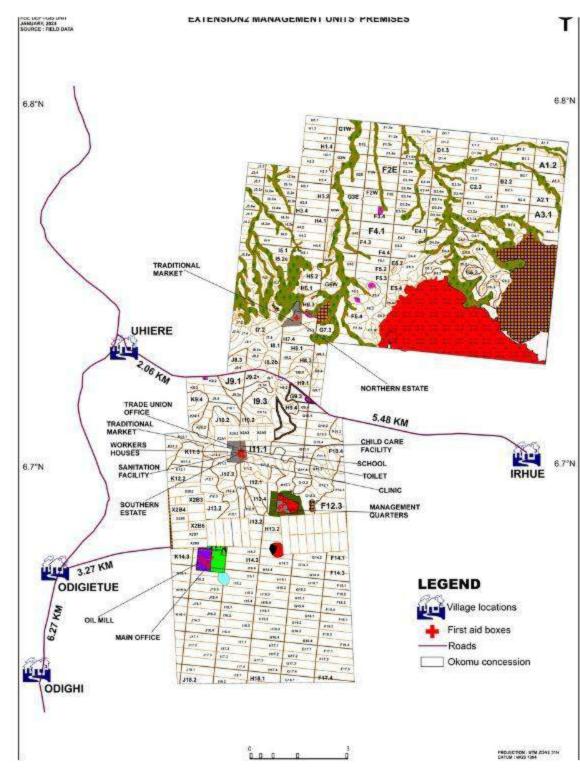

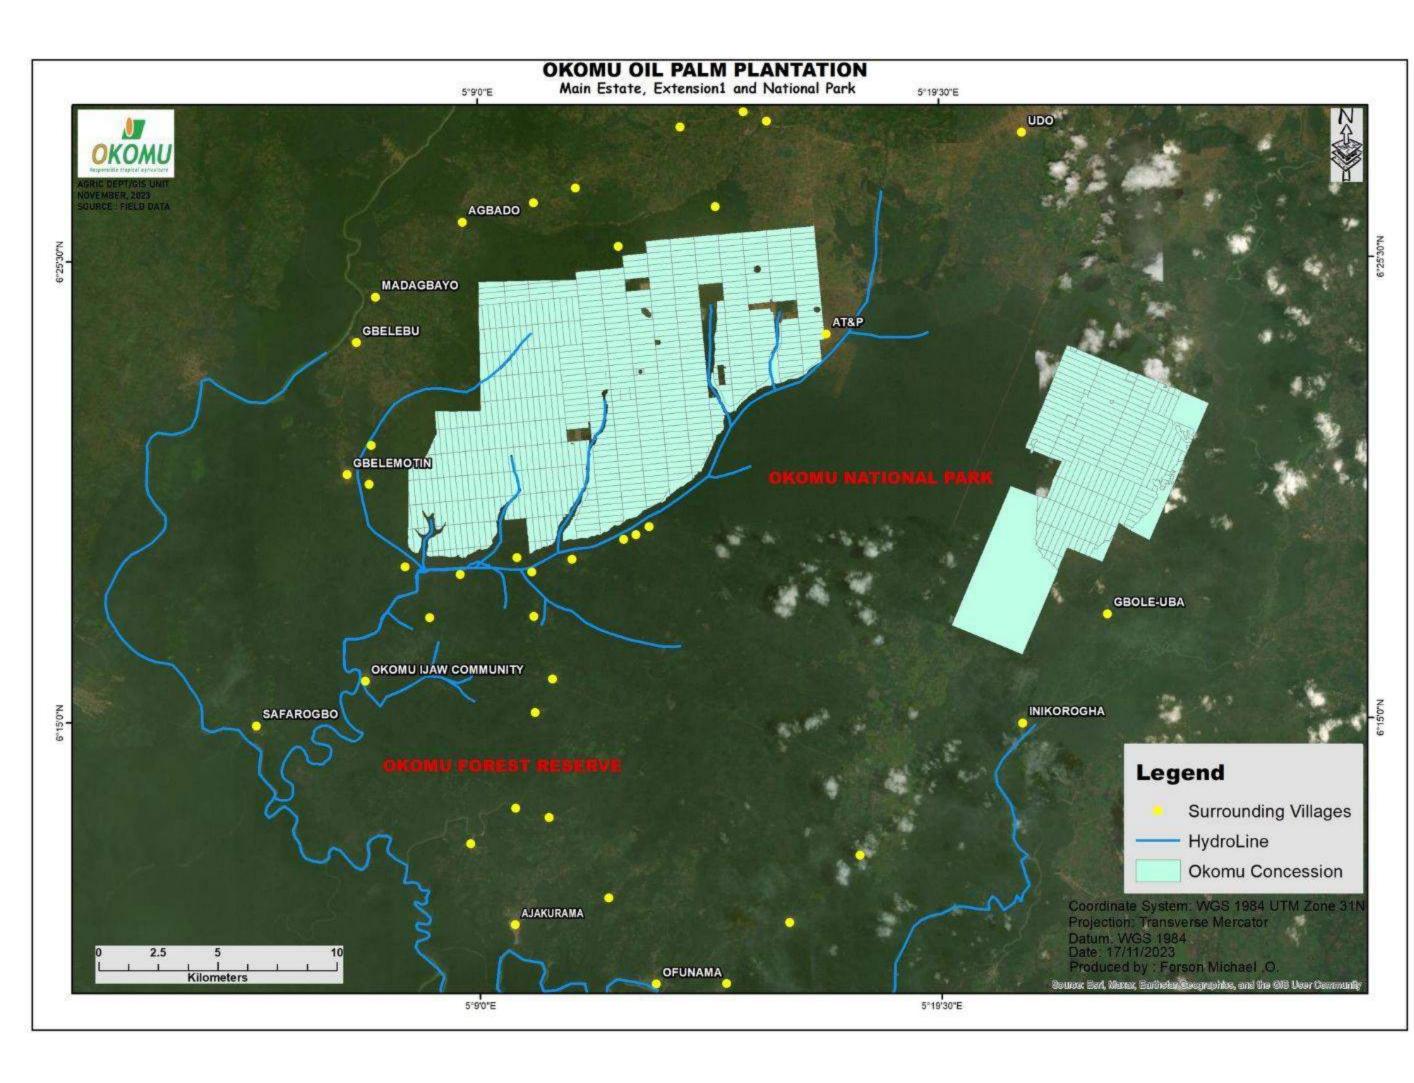

MAP OF THE PLANTATIONS

MAP OF THE PLANTATIONS

PREFACE ON CORPORATE SOCIAL RESPONSIBILITY

We at The Okomu Oil Palm Company plc are conscious of the fact that our company is an open-social system with input from the environment and our outputs go back to the environment. We are also oblivious of the fact that as a corporate citizen of the Federal Republic of Nigeria, there are expectations from our neighbouring communities to assist them within our sphere of Corporate Social Responsibility.

In our interaction with our neighbouring communities over the years, we have strived to positively impact the lives of the inhabitants through job opportunities, human capital development and infrastructural development.

Our Corporate Social Responsibility Programmes cover communities that share boundaries with our three (3) plantations in the three (3) Local Government Areas of Edo State where we operate.

This compendium of our Corporate Social Responsibilities (CSR) to our neighbouring communities is best perceived as compendium of Service to humanity.

The projects contained herein are by no means exhaustive rather, it gives an insight of our disposition to our neighbouring communities.

The essence of the compendium is not to flaunt philanthropism but to document the symbiotic relationship between the company and the communities. The pictures in the compendium are presented according to their place of domain i.e the communities.

It is our fervent belief that this relationship will be improved upon in the years to come and afford us the opportunity to contribute to the infrastructural development of Edo State as we strive to create wealth from the soil while at the same time touching lives and transforming communities.

Going through this compendium you may find that some communities have very few projects and some have more projects. This is attributed to the sizes of the communities. While some communities are small, isolated and with few people, others are very large with adjoining villages.

In undertaking these projects in our neighbouring communities, we have lived true to Adrien Hallet's slogan that says "with nothing we can do nothing, but with little, we can achieve plenty"

A LETTER OF APPRECIATION

On behalf of Amadagbayo community, I wish to thank the Managing Director, Okomi Oil Palm Plc, Okomu-Udo for many projects you executed in our community, i.e Amadagbayo community in 2013.

In 2013, you executed (4) four classrooms, a pavilion of about 12 (twelve) rooms and (2) two bore holes respectively. You also graded the road from Okomu to Gbelebi and beyond. You also gave (2) two students in higher institution the sum of \$480,000 (eighty thousand naira) each as bursary award and (4) four people in skill acquisition respectively.

In this 2014, you have also promised to build some market stalls at Amadagbaya community, give two students bursary awards, some people on skill acquisition and to also grade the road from Okomu - Gbelebu and beyond.

Since the inception of Okomu Oil Palm Company Plc for many years till this time, we have not got such an opportunity from Okomu Company, if not at this your time.

I say we are very grateful to you, sir. We are strongly behind you and we shall help to se to see that none of our inhabitants shall vandalize your products.

May the company continue to grow and glow in Jesus name.

LETTER OF APPRECIATION

We write on behalf of the entire members of the above Community to acknowledge and appreciate you for the grading of the 22km Safarogbo, Gbelebu Benin earth road.

We are equally using this same medium to humbly express our profound gratitude and appreciation for the good work done on our road.

There is an adage which says that the morning shows the day. Our relationship with you so far has created in our minds the confidence that, you are a listening Managing Director, a man of integrity, and a man who loves to fulfill promises. You have delivered to our Community once again the grading of the earth road, school desks, 2 skills acquisition for development and an award of bursary to 2 of our deserving children. We appreciate you for a job well done.

ir, as we appreciate you for what you have done for us, we still have some demands to make with due respect to your esteemed office. It is our wish if the following projects can be provided for us to boost the developmental stride of our Community: They are:

- 1. Community Town Hall
- 2. Community Guest House
- 3. Wiring of Safarogbo Town to enable us use the Community Plant which we have since procured.

Once again we appreciate your magnanimity for providing for us what the civil government could not do for us. It is our prayer that God in His infinite mercy will continue to strengthen you in all your endeavours and grant you good health, amen.

Thanks and God bless our listening Managing Director.

Accept the assurances of our highest esteem.

LETTER OF APPRECIATION IN FAVOUR OF THE CONSTRUCTION OF NIGERIAN POLICE POST AT IRHUE COMMUNITY.

We are pleased to inform you of the recent completion of the construction of Nigerian Police Post which you awarded for our Community.

By this, therefore, we wish to express our heartfelt gratitude to your management for this praiseworthy project. Kindly note also that our Community does not have any outstanding and/or uncompleted project for 2018.

Please, we humbly wish to use this opportunity to remind you of the BOQ submitted to you for our semi industrial borehole project for 2019. This, we sincerely believe you will award out in good time.

Meanwhile, the need for your estate department to inspect the referenced Nigerian Police Post cannot be over emphasized.

We pray God Almighty to continue to prosper you all in Jesus name.

Dear Sir,

LETTER OF APPRCIATION

We are writing on behalf of the Elders and good people of Odiguetue Community to appreciate you and members of your management team, for promptly completing the renovation work in Pa. Simeon Evbodaghe Ukhucigbe, the Odionwere of Odiguetue's house in record time on one hand, and the just-concluded grading of earth roads in the Community on the other hand.

It is worth mentioning that; during the last meeting between the alate Odionwere and members of his Working Committee before he passed on in the late hours of 15th February, 2018, the Odionwere as always, still prayed to God, for good health and longevity to enable him witness the commissioning of this face-lift given to his house by your esteem organization. But regrettably enough, he never lived to see the fulfillment of his dream.

Please, permit us to appreciate your team of Engineers who were always coming for inspections, to ensure that the contractor meets with the BOQ standard.

Finally, we also want to express our profound appreciations to the Managing Director of St. Hilary Global Ventures, who was humbled at every stage of the contract execution to correct some pointed

errors not captured in the original BOQ of the contract, in order not to give his company and Okomu Oil Palm Company Plc a bad name. And moreso, as organization who wasn't willing to embark on the project in the first instance.

The purpose of the above emphasis is to project your mind towards the contractor's claims of additional burden during the cause of executing the project. Please, do give it the necessary consideration and approval.

Once again, we appreciate and thank you immensely as God Almighty continue to enlarge your business coast.

Thank you and God bless.

APPRECIATION LETTER: DRILLING OF SEMI INDUSTRIAL BOREHOLE WITH GENERATOR HOUSE AT ORBUG COMMUNITY

We wish to express our sincere appreciation to you for the successful drilled semi-industrial burishele, built Generator house and the Generator which you provided for our Orhua Community.

Apparently, there were lot of financial wastages on this project because of the growing environmental and soil clay which gave the Contractor initial challenges. After successful drainage and casing at two different locations, the Contractor lost all the casing materials made drained borehole during their process of final flusting. The Contractor resulted to the use of iron casing materials for the third drilled well before it became successful.

It is on records to praise the good courage of the Contractor "O. Efionayi Agencies/ Hon. Ogbernudia Effonayi"

We are highly grateful to the Buard, Management and Staff of Okomu Oil Palm Co. Pic for this landable diagram which you provided for us.

PREFACE ON COMMUNITY RELATIONS

This compendium is a compilation of the We have over time enjoyed maximum covarious ways Okomu Oil Palm Plc embarks on operation from these communities community relations among its neighbouring communities. This is premised safeguarding our properties, projects, watching on the fact that we believe in building a cordial over our interest, appreciation of the company relationship all with and strong stakeholders.

We believe in the need for a two-way communication all with process our communities, hence the opening of a feedback mechanism in all our communities. This feedback turns out to be a valuable part of our operations and has become an integral part of our decision-making process in relating with our communities. As a company, we have invested our time and finances in our communities, part of which is the bi-annual visit to all of our twenty-nine communities in a bid to build the confidence of the people towards the company and also show our responsiveness to them and the welfare of those with whom we share boundaries with.

Apart from our communities, we also embark on such gestures and regular visitation to other stakeholders including Government agencies at Federal, State and Local Government Level, security agencies, institutions of learning and charity organizations as this forms part of our company's philosophy. Although compendium does not cover our entire community relations with our stakeholders engaged by the company in the year under review, it covers an appreciable number of the various community relations we had embarked upon both to our immediate communities and among other stakeholders.

its stakeholders by way of protecting our for some of our acts of kindness towards them, we would also say at this point that there is room for improving in this relationship with these stakeholders as we continue to operate and contribute our quota not just to these communities but Edo State at large.
